B.Tech, Computer Science and Engineering – Big Data Analytics
Address : 137/138 G7 MAHALAKSHIMI FLATS,PILLIYAR KOVIL STREET ,JAFFERKHANPET,CHENNAI-600083

Summary

Final year Computer Science Engineering undergraduate specializing in Big Data Analytics with hands on experience in machine learning and web development. Proven ability to innovate through hackathons including Smart India Hackathon, and delivering data driven solutions through internships. Skilled in data analysis, statistical modeling, and building scalable real world applications. Strong collaborator with experience in presenting actionable insights, supported by 6 months of startup experience and multiple certifications.

Education

SRM IST-Ramapuram 2027
B.Tech · Full-time · Computer Science and Engineering – Big Data Analytics CGPA – 9.79/10

SREE NARAYANA MISSION SENIOR SEC SCHOOL 2023
Class XII – CBSE · mpc · WEST MAMBALAM CHENNAI-600033 Percentage – 87%

SREE NARAYANA MISSION SENIOR SEC SCHOOL 2021
Class X – CBSE · mpc · WEST MAMBALAM ,CHENNAI-600033 Percentage – 94%

Experience

Upstride Jan 2026 – Mar 2026
AI Engineer · Backend developer · Part-time

- Designed and implemented scalable API architecture for the APEX project, improving data flow efficiency by 30 percent
- Containerized backend services using Docker, reducing environment setup time by 40 percent and ensuring consistent deployments.
- Collaborated with team members to integrate AI components with backend systems for seamless functionality.

Izeon Aug 2025 – Sep 2025
Machine Learning · Intern · Part-time

- Developed supervised and deep learning models using structured and image datasets.
- Improved model performance by 20 percent through feature engineering and hyperparameter tuning.
- Performed data preprocessing, model validation, and accuracy evaluation using standard ML workflows.
- Collaborated with mentors to implement ML solutions for real time case studies.

Izeon Dec 2024 – Jan 2025
Web developer · Intern · Part-time

- HTML, CSS, JavaScript, Responsive Design, REST API Integration, Git
- Built responsive frontend components for live web projects.
- Achieved cross device compatibility across 95 percent common screen resolutions.
- Assisted in integrating frontend modules with backend APIs.
- Improved UI consistency and reduced layout issues by 30 percent.

Projects

Retail Growth Intelligence (RGI) System Feb 2026 – Mar 2026
· Python, Scikit-learn, Pandas, NumPy, Power BI, Machine Learning

- Developed an AI-based demand forecasting system using Random Forest, achieving up to 97% accuracy for retail predictions.
- Integrated sentiment analysis and regional data to enhance prediction performance and support intelligent decision-making.
- Designed inventory optimization and Power BI dashboard to provide insights on demand trends, stock management, and business KPIs.

Music genre Classification System Aug 2025 – Sep 2025

· Python, TensorFlow or Keras, Librosa, NumPy, Streamlit Deep Learning

- Built a deep learning based audio classification model to categorize music into multiple genres.
- Achieved 85 percent classification accuracy using Convolutional Neural Networks.
- Performed audio preprocessing using feature extraction techniques such as MFCC.
- Deployed the trained model using Streamlit, enabling real time genre prediction for uploaded audio files.

Crop disease prediction Sep 2024 – Nov 2024

· Python, Image classification ,Pandas Machine Learning

- Leading the team for Smart India Hackathon by giving technical solutions to selected problem statements under different themes.
- Supported data preprocessing, model selection discussions, and result interpretation.
- Participated in pitching the solution and addressing evaluator feedback during hackathon rounds.

Skills

Programming Languages: Python, SQL

Tools and Technologies: Mysql, MongoDB, MS Excel, PowerBI, Matplotlib, GitHub, Docker , LangChain

Domain Knowledge: Machine Learning , NLP , RAG

Languages and Frameworks: HTML, CSS, Javascript, React, Bootstrap, FastAPI,API

Awards

Big Data Computing Dec 2025

IIT · NPTEL

- Completed an intensive NPTEL certification on Big Data Computing with strong performance and 85 percent score, earning a Silver Medal.

Certifications

Claude code in Action Feb 2026

Anthropic

Completed practical training in AI-assisted sohware development using Claude Code.

Data Base Management System May 2025

NPTEL

Buil Completed certification covering SQL, normalization, and database design principles

Python Data visualisation Oct 2024

Udemy

Completed practical training in data visualization using Python.

Volunteering

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY Feb 2025 – Mar 2025

Student Volunteer · Department Development

Contributed to technical event coordination and support.

LEO CLUB OF HOPEVILLE Sep 2025

Volunteer · Community Connect Program

Competitions

Hackathon Aug 2025

Participation · VIT

Smart India Hackathon Sep 2024

Participation · Ministry of Education's Innovation Cell

Conferences and Workshops

International Conference on Emerging Computing Technologies (ICECT 2026) | Link — Mar 2026

Velammal Engineering College

- Presented research paper on “Regional Forecast Driven E-Commerce Growth Intelligence”.
- Developed an AI-based system using Machine Learning, Demand Forecasting, and Sentiment Analysis.
- Applied Random Forest algorithm for prediction and Power BI for data visualization.
- Demonstrated skills in data analytics, predictive modeling, and research communication.

Extra Curricular Activities

PR Head at TechPro Students Club — Sep 2025

Public Relation Head , Techpro Student Club- SRMIST, led technical initiatives, organized engineering events, and coordinated inter department technical activities.

Languages

English [Professional Working Proficiency], Hindi [Limited Working Proficiency], Tamil [Native Proficiency]
